FRYERS ON A RACK

AVAILABLE MODELS: SP-24, SP-48, SP-60, SP-80

Maximum performance

insulated bowl

temperature adjustment

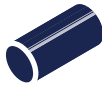

2x frying baskets

non-heating handles

removable heating component

AISI 304 stainless steel

drain valve

safety thermostat

hygienic smooth surfaces

easy and safe control

WHICH VERSION DO YOU NEED?

FRYING 24, 48, 60 AND EVEN 80 DOUGHNUTS AT THE SAME TIME

SP type electric fryers are intended to fry doughnuts, cenci, fish and other products requiring quick preparation in oil. All components of the device are made of top quality acid-proof steel OH18N9. Simple forms and a shaped bowl facing towards the tap – the oil drain make it very easy to keep the machine clean. The heaters with the control panel are easily removable, so it is possible to quickly clean the panel or the bowl bottom. To ensure maximum safety of the heater at the control panel in a zone not immersed in oil, they do not heat up and have a dead zone. Excellent insulation

prevents heating of the fryer and bowl covers. The doughnut fryer features a safety thermostat which prevents overheating and burning of oil in case of damage to the controls. The indicator light on the control panel signals with its colour the heating process or properly heated oil. The heaters are elevated above the bowl bottom which prevents burning of crumbles, flour, etc. The basket handles are made of non-heating fryer of a robust design will certainly prove useful in many confectioneries, bakeries or fish restaurants.

Model	Number of standard doughnuts [pcs]	Outer dimensions [cm] (with drainer unfolded)	Inner dimensions of the bowl [cm]	Power [KW]	Power supply
SP-24*	24	69 x 46 x 27 (116)	49 x 41 x 17,5	6	400 Volt / 50 HZ
SP-48	48	84 x 67 x 117 (140)	64 x 62 x 15	6	400 Volt / 50 HZ
SP-60	60	104 x 67 x 117 (180)	84 x 62 x 15	7,5	400 Volt / 50 HZ
SP-80	80	142 x 67 x 125 (220)	104 x 62 x 15	9	400 Volt / 50 HZ

COMPACT TABLE TOP FRYER SP-24

Equipment

- Oil bowl
- Removable heaters with a control panel
- Shaped drainer
- Oil drain, ball valve
- Two baskets for pulling doughnuts out
- Adjustable feet

The fryer has two thermostats – main and protection ones.

The heaters are elevated above the bowl bottom and protected against burning.

WHICH VERSION DO YOU NEED?

FRYING 48, 60 AND EVEN 80 DOUGHNUTS AT THE SAME TIME

A fryer with a proofing chamber, including all equipment necessary for starting production (*fryer, proofing chamber for doughnuts on castors, five tipping units in the proofing chamber, two baskets for pulling doughnuts out*). All components of the device are made of top quality acid-proof steel OH18N9.

With simple forms, it is very easy to keep the device clean. Excellent insulation guarantees minimum heating of the external layer. Owing to many years of experience in designing and manufacturing machines, we have not encountered any single failure of the heating system for 10 years of the manufacturing period.

High efficient proofer

Equipment

- Proofing chamber on castors
- Oil bowl
- Removable heating component
- Oil drainer
- Oil drain tap
- Suspended cover
- Two baskets for pulling doughnuts out
- Five tipping units for doughnuts in the proofing chamber

Model	Number of standard doughnuts [pcs]	Number of 10x10 cm doughnuts [pcs]	External dimensions [cm] (with drainer unfolded length, depth, height)	Inner dimensions of the bowl [cm]	Power [KW]	Power supply
SP-48G	48	36	84 x 67 x 117 (140)	64 x 62 x 15	7	400 Volt / 50 HZ
SP-60G	60	48	104 x 67 x 117 (180)	84 x 62 x 15	8,5	400 Volt / 50 HZ
SP-80G	80	60	142 x 67 x 117 (220)	104 x 62 x 15	10	400 Volt / 50 HZ

ADDITIONAL EQUIPMENT

Mobile proofing chambers

full humidity control

air circulation system

proofing chamber temperature control

uniform climate within the chamber

chamber on castors

MOBILE, SHOP PROOFING CHAMBERS ARE A PERFECT SOLUTION FOR SHOPS, SMALL BAKERIES, CONFECTIONERIES, GASTRONOMIC FACILITIES.

We offer two models for the same number of 20x trays of 40 x 60 cm, varying in dimensions, so it is always possible to select a chamber for individual needs and a place in which it is to be positioned.

PROF-1

Dimensions: 560 x 875 x 2020 H [mm]

Power: 230V

Capacity: 20 trays (40x 60cm)

PROF-2

Dimensions: 760 x 675 x 2020 H [mm]

Power: 230V

Capacity: 20 trays (40x 60cm)

AUTOMATIC DOUGHNUT STUFFERS

An easily removable tank of 15l for long operation. 3 operating modes with manual (*lever*) or feet (*pedal*) dosing, or continuous feeding settings.

MANUAL DOUGHNUT STUFFERS

A simple and easy design for smooth disassembly and fast cleaning of parts. Distinguished by a high strength with a long service life.
