SEED APPLICATOR FOR SPRINKLING SUGAR OR SEEDS

SIMPLE SPRINKLE APPLICATION FOR THE BAKERY AND CONFECTIONERY INDUSTRY
The machine allows you to evenly sprinkle baked goods and confectionery with a layer of toppings of various weights, such as sugar, poppy seeds, sesame or other fine seeds. Thanks to the simple dosing adjustment, you can set the desired amount of sprinkles. All excess falls directly into the tank thanks to the use of conveyor belts. Smooth adjustment of the speed of the transmission belts and the roller that feeds the sprinkles allows for even more precise adjustment to your needs. The whole machine is made of high quality AISI 304 stainless steel and is mobile thanks to wheels, which makes it easy to move around.

A simple sprinkle application is not only a tool that allows for faster and more precise sprinkling of baked goods and confectionery products.It is also a device that will significantly improve the work in your bakery or pastry shop, saving time and money.

In addition, the high-quality stainless steel construction guarantees durability and easy cleaning.

As a manufacturer, we focus on the quality and functionality of our products, which is why our simple sprinkle application was made with attention to every detail to meet the requirements of our customers. Thanks to the mobile construction of the machine, its transfer from one place to another is easy and convenient.

# SEED APPLICATOR FOR SPRINKLING SUGAR OR SEEDS
